COATES HOUSE WAS PACKED.

CONVINCING SPEECHES BY A. E. STIL-WELL AND J. K. CUBBISON.

Delegates Elected to the State Sound Money Convention-Democratic Delegations Filed-Delegates From Other Parts of Missouri.

An audience of 3,000 people filled the Coates opera house from floor to ceiling last night at the great sound money meet ing held under the auspices of the Eighth and Ninth Ward Republican Clubs. Mayor James M. Jones presided, and during the evening a number of national songs were sung by the audience. The platform was occupied by a number of the most prominent Republicans of Kansas City, and in audience were a great many ladies. It was one of the finest audiences that ever attended a political meeting in Kansas City, and was thoroughly in sympathy with the speakers of the evening, Mr. A. Stilwell and Mr. J. K. Cubbison, of

Kansas City, Kas. Mr. Stilwell repeated his recent address colivered at Fairmount park some days ago, on the subject:
"Free Silver a Private Snap and Not
a Public Trust." The address was flius-trated with a num-ber of charts, tables the operation of the variation of

financial laws and the vast increase in the production of all taple products of the country.

After the singing of the national an-them, Mr. Stilwell was introduced by given an ova-He began by reading extracts from speeches, in favor of the gold standard, made by Senator W. M. Stewwealthy mine own-

A. E. Stilwell. Senator W. M. Stewart, who is now a wealthy mine owner and one of the leaders of the free sliver movement. Mr. Stilwell showed that when sliver was at a premium it disappeared from the coinage of the country and that gold would likewise disappear under free coinage, which would force it to a premium. He deprecated the spirit of repudiation, which has been spreading over the country, and declared that any nation that repudiated was a thief. He defended foreign capital, which has done so much to develop this new Western country, from the denunciations of the repudiationists. By means of blocks of bullion, a miniature United States mint and a miniature United States mint and a miniature United States treasury. Mr. Stilwell illustrated the purchase of silver bullion and its coinage under the purchase laws and the free coinage of silver under the private snap scheme. The unanswerable arguments made by Mr. Stilwell were repeatedly cheered and the address was universally regarded one of the strongest presentations of the financial question that could be made.

J. K. Cubbison, of Kansas City, Kas., was the other speaker of the evening and he made one of the greatest political speeches ever made in this city. For over an hour the great audience cheered until the magnificent reroration was ended. The speech was filled with convincing argument, infectious humor stirring element, infectious humor, stirring ele-ence and stamped Mr. Cubbison as on of the finest orators and most effective

Youmans, James Scammon, J. C. Ford, C. C. Christie, George L. Brinkman, O. H. Dean, T. J. Brent, Frank Muehlschuster, John Murray, pendence; E. R. Crutcher, J. K. Davidson, Brent, Frank Muchlschuster, John Murray

A lengthy address to the Democrats of Jackson county was adopted, setting forth in detail the reasons for the formation of clubs to perpetuate the Democratic organization, which has been surrendered to the Popullsts by the Chicago convention. The address was presented by Judge J. McD. Trimble, and places law and order before the financial issue in stating the objections of Democrats to the Chicago platform.

The convention was called to order at 2:30 o'clock by Thomas R. Morrow, chairman of the executive committee of the Democratic Sound Money Club. A. R. Strother was elected chairman and C. S. Palmer, secretary.

A committee of seven to select delegates to the St. Louis state convention was appointed, consisting of J. McD. Trimble, A. L. O. Schueler, J. W. Garner, D. P. Thomson, Thomas R. Morrow, C. R. McCoy and W. J. Meads. This committee subsequently reported the delegates as given above and the report was unanimously adopted.

D. B. Holmes and Judge Trimble made brief talks, but there was no attempt at speechmaking during the convention. The delegates were elected, and as this was the sole object of the convention, a journment was taken when this object was attained. In presenting the address adopted by the convention later Judge Trimble placed himself at the disposal of the sound money managers during the campaign. The address details at length the events connected with the Debs strike and denounces the anarchistic action oof the Chicago convention in condemning the supreme court. The money question is ably and exhaustively presented. D. B. Holmes thought that the money question ought to be made first, but Judge James Scammon, Chairman Strother and others declared that law and order was an issue more important than even the money question ought to be made first, but Judge James Scammon, Chairman Strother and others declared that law and order was an issue more important than eve

world.

A noticeable feature of the convention was the fact that the merest mention of the name of President Cleveland was greeted with loud cheers, and the name of ernor Stone was greeted with hisses,

MANY DELEGATIONS FILED.

lickets Which Will Be Voted On a the Democratic Primaries Next Saturday.

Yesterday was a busy day for Demo cratic politicians, fixers and schemers. It was the last day allowed for filing delega-tions for the county convention to was the last day allowed for filing delegations for the county convention to
be voted on at the primaries which
will be held next Saturday. The time for
filing did not close until 9 o'clock in the
evening and with the usual distrust which
one Democrat has for another those who
were entrusted with the filing of the delegations waited until within a few minutes
of the expiration of the time and then they
all went in with a rush. Twenty-six delegations in all were filed and in every ward
save the Second there will be a cortest.

In most of the wards it is to be the
same old Brown and anti-Brown fight
which has been the bone of contention in
the Democratic ranks for so long. Although in a number of wards there are
from four to six delegations filed the fight
will in reality be on only two of these, the though in a number of wards there are from four to six delegations filed the fight will in reality be on only two of these, the others being dummies, filed for the purpose of obtaining extra judges and clerks. In the Ninth ward, for instance, no less than four of the delegations were written by one man, said to be Jim Shannon by those familiar with his writing. The only fights for places on the county ticket which enter into the make-up of the delegations are those for sheriff and prosecuting attorney. Hugh McGowan, Bernard Corrigan and others of the bosses of the gold wing of the Democracy have made up their minds to beat Frank Lowe out of the nomination for prosecuting attorney at all hazards and they have centered their strength on James A. Reed, having thrown Joe Williams overboard. Williams was cheated out of the nomination two years ago and the bosses mean to see that he is defeated ses mean to see that he is defeate

bosses mean to see that he is defeated again.

One peculiar thing about the composition of the delegations is the character of the smen placed on some of the so-called free silver delegations. In the Fifth ward, for instance, the name of Frank Muchischuster heads the Bryan silver delegation. Mr. Muchischuster is one of the most pronounced gold standard Democrats in Kansas City and has been selected as one of the delegates to the sound money convention at St. Louis. The Fourth ward silver delegation contains the names of such ardent free silver (?) men as Hugh McGowan and Bernard Corrigan, and other instances of a similar nature may be cited all the way through. In the First ward the fight for constable cuts a figure and also the fight which is being made on Boss Jim Pendergast. One of the delegations from the Tenth ward is headed the "anti-court house delegation," and a protest was filed against it with the election commissioners on the ground that the heading contained more than three words. The protest was signed by J. J. Dunn, James Armstrong and Campbell Chapman, but it will not be considered, as it is not well founded. but it will not be considered, as it is no well founded.

The Picnic Season On.

The picnic season has fairly commenced in Eastern Jackson county, and the year so far holds the record over preceding years, in number and attractiveness. Yesterday a picnic was held at Sibley, in the northeastern portion of the county, and the attendant success will likely cause the gathering to be made an annual affair.

Wednesday a pionic will be held at Oak Grove, under the auspices of the Oak Grove band. All of the politicians have been invited to be present. Joe McCoy, Will Cowherd and John S. Crosby are billed to entertain the crowd. Thursday there will be an A. P. A. plenic at Farlowe's grove, on the electric line. All of the big and little guns of the order are expected to be present.

Isham Powell, a well known Populist, declared yesterday that Mr. Cowherd would not be indorsed by the Populists even though their candidate should withdraw. The feeling that Mr. Cowherd is too recent a convert to the cause of free silver was assigned as the cause. They say that he was not long ago an advocate of sound money.

Dr. Walter E. Jackson has entered the race for the Democratic nomination for county coroner. This probably means a new slate in Democratic political circles, as Dr. Jackson is particularly popular with the young men and it is understood that they will demand recognition for the young physician.

Major and Mrs. Stillwell, of the Salvation Army, Arrive in the City From New York.

The reception to Major Stillwell and MFs. Stillwell, and to Adjutant Merriweather and wife, who arrived in this city from New York yesterday afternoon at 2 o'clock, given at the Salvation Army tent, corner of Fourteenth and Wyandotte, last evening, was decidedly enthusiastic. The services began with an open air meeting at the corner of Eleventh and Main streets, from which place the combined local corps of the army, followed by a large crowd, marched to the tent. The tent was packed with Salvationists and their friends, who were anxious to meet the new commander. The reception was very informal, and the usual enthusiasm which characterizes the meetings of the army was manifested.

Major Stillwell succeeded Brigadier Sully as commander of the Southwestern division of the Salvation Army, with his headquarters in this city. He has been actively engaged in Salvation Army work for the past fourteen and one-half years. He has been stationed at Minneapolis, Minn., but has been on a furlough this summer, he and his wife spending the time at Asbury Park, N. J. Adjutant Merriweather, who will be the major's secretary, has been in command of the Connecticut division of the army, with headquarters at New Haven.

Robbery.

The police were unable yesterday to discover any new clues in the American National bank's branch office robbery at the Stock Exchange building. Cashier Boswell, whom they suspect of complicity in the crime, appeared at Central police station about 9 o'clock yesterday and reported to Chief Irwin. As there was no new evidence against him, he was permitted to go without arrest, and is said to have gone to his home at Pleasant Hill. Detectives Haldwin and Booher, who are working on the case, claim to have some clue as to a man going into the building and taking the money, but there is nothing definite

a man going into the building and taking the money, but there is nothing definite about it.

George F. Putnam, president of the American National bank, was seen last night by a Journal reporter. Asked if he believed Mr. Boswell guilty of a conspiracy to rob the bank, Mr. Putnam said:

"I don't know. Sometimes I think he is, and sometimes I think he isn't, I jon't want to say anything that will injure the young man, but whether he is guilty of that or not, he is at least guilty of gross carelessness and of disobedience of the rules of the bank. There is a safe in that department of the bank to put money in when the attendants are absent. That's what the safe is for. He has been tolo not to leave money in the drawer unless he was there to guard it."

THE PROBLEM SOLVED.

The New York Press Strongly Indors

es Dr. Keeley's Gold Cure. phenomenal success of Dr. Leslie E. Keeley's gold cure for drunkenness and narcotic drug habits is without doubt unequaled in the history of medicine. A contributor to a recent issue of the New York Daily Press, in closing a very exhaustive review of the Keeley work, says:

"Keeleyism is no longer an unsolved problem; it has been demonstrated beyond any possible peradventure. It is idle to discuss the question with any one. The man who has his eyes open cannot fail to see the evidences; the man who shuts his eyes will see nothing, anyhow. It is just as absurd to discuss a proposition as to whether a cable crosses the Atlantic ocean as to offer to argue over whether Keeleyism is or is not a success. By every rile of evidence, by every determination of fact, by every show of reason, by every appeal to every possible sense the matter is determined now and forever more. In this day and generation, when the detective spirit is abroad in the land, when every newspaper and court of justice and individual are eagerly at work scanning, weighing, searching, investigating, trying and proving it would be absolutely impossible that Dr. Keeley should be a pretender without being exposed as such to the gaze of the world. It is the height of imprudence, if not of downright ignorance, to assert that men of all classes of intelligence and every grade of social position from every part of this broad land, to the number of 250,000, could be gulled by Dr. Keeley or a hundred such men as he. They prove in their daily lives the thoroughness and radicalness of the cure."

One has no need to go further than his own hamlet or village or town or city to find sensible, practical men who have gone to the fount of healing and are ready to testify to the curative powers thereof.

In nearly every city and hamlet throughout the great Southwest are living examples of the result of Dr. Keeley's cure as administered at the Keeley Institute of Kansas City Kas, which has now been engaged in this branch of temperance work for nearly five years. It enjoys the reputation of being one of the best equipped as well as the most narcotic drug habits is without doubt unequaled in the history of medicine. A con-

PARTIAL ECLIPSE.

Portion of the Moon's Disk Obscured Last Night.

A partial eclipse of the moon took place last night. As the sky was filled with floating clouds it could be seen at Intervals only, though several times good views of it were to be had. Of the four eclipses this year—two of the sun and two of the moon—this was the last and the only one visible in the United States. The range of visibility was wide, extending from Boston to San Francisco. Here the moon entered the shadow at about 11:30 o'clock. The eclipse was half way over at a minute or so past 1 o'clock. At a few minutes after 2:30 o'clock the moon left the shadow. At San Francisco the eclipse began at a few minutes after 9 o'clock. At Boston it did not begin until over a half hour after did not begin until over a half hour after

A unique feat will be attempted at the Troost park chutes to-day. At 5 this after-Troost park chutes to-day. At 5 this afternoon H. A. Knipscheer, a local one-legged
cyclist, will attempt to ride down the incline upon his wheel, to decide a wager
made several days ago with a friend. As
the incline is 200 feet long, almost as steep
as Vesuvius and covered with wooden
cleats, the trip will be one of the most
daring and hazardous ever attempted. To
add to the difficulty of the feat, Knipscheer will, when he reaches the bottom
of the incline, be compelled to dive from
his wheel into the Troost park lake.
If successful in the afternoon Knipscheer will make the ride again at 9:45 in
the evening.
